

The Kia
VENGA

The Power to Surprise

The sophisticated Kia Venga

The Kia Venga range comprises five stunning models – '1', '1 Air' adding air conditioning, '2', '3' and the range-topping '4'. And like the rest of the Kia range, all benefit from our pioneering 7-year warranty.

The range has been invigorated and refined – inside and out – with its dynamic look and superb versatility combining all the advantages of a family hatchback and a compact MPV, brought together in one stunningly crafted package. Venga's high roofline and its unusually long wheelbase contribute to its outstanding interior space and practicality.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

Born and bred in Europe

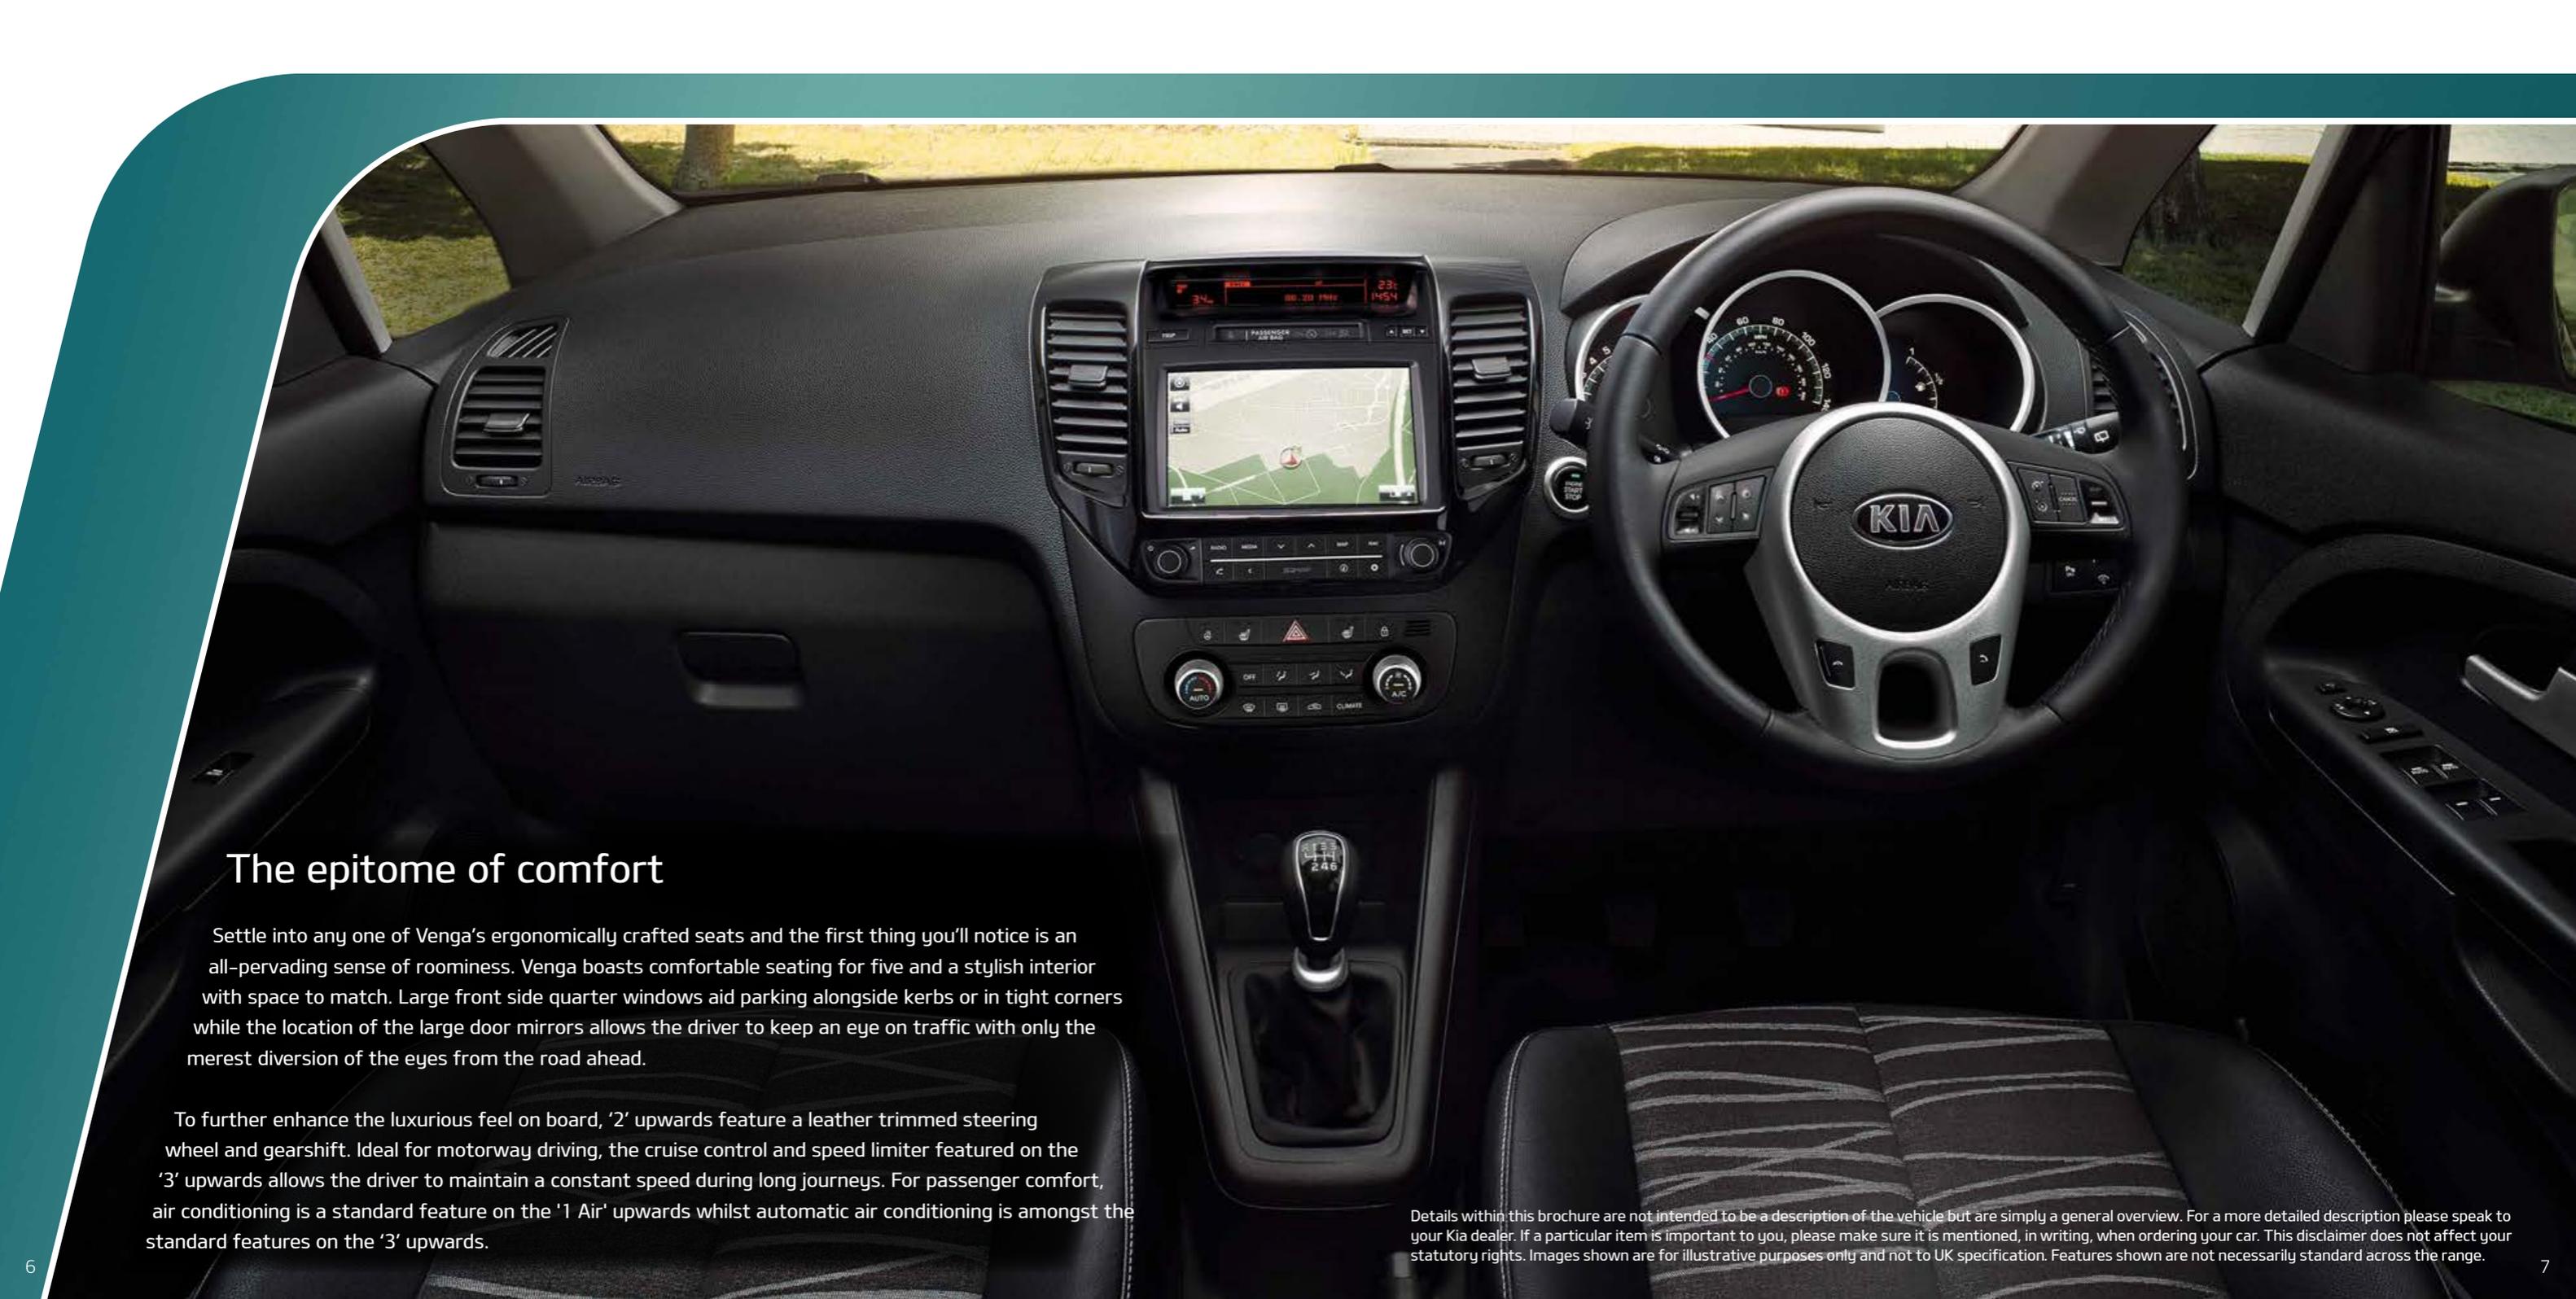

The Kia Venga was designed and engineered at our European Design Centre in Frankfurt, Germany with an uncompromising attention to detail. Like our popular cee'd and Sportage models, Venga is manufactured at our state-of-the-art factory in Zilina, Slovakia where our highly qualified technicians and more than 400 robots produce premium quality cars.

Take a look around the Venga and you'll find plenty of eye-catching design features including the imposing 'Tiger-Nose' black high gloss grille with chrome surround, stylish alloy wheels ('2' upwards), the convenience of electrically folding, adjustable and heated door mirrors with integrated indicator lights ('2' upwards) and stylish privacy glass ('3' and '4') which further enhances the exterior appeal of these models.

1. Signature 'tiger-nose' grille. 2. Electrically folding, adjustable and heated door mirrors with integrated indicator lights ('2' upwards). 3. Front Fog Lights ('3' upwards). 4. Stylish alloy wheels ('2' upwards)

A wide-angle photograph of the interior of a Kia Venga. The view is from the driver's perspective, looking towards the dashboard. The dashboard is dark grey or black with a central infotainment screen displaying a navigation map. Above the screen is a digital display showing '34.0', '88.20 MHz', and '23:14:54'. Below the screen are climate controls with two rotary dials and several buttons. The steering wheel is black with silver accents and the Kia logo in the center. The instrument cluster behind the steering wheel shows a speedometer and other gauges. The center console has a gear shift lever. The seats are black with a grey and white striped pattern. The overall lighting is bright, suggesting a sunny day outside.

The epitome of comfort

Settle into any one of Venga's ergonomically crafted seats and the first thing you'll notice is an all-pervading sense of roominess. Venga boasts comfortable seating for five and a stylish interior with space to match. Large front side quarter windows aid parking alongside kerbs or in tight corners while the location of the large door mirrors allows the driver to keep an eye on traffic with only the merest diversion of the eyes from the road ahead.

To further enhance the luxurious feel on board, '2' upwards feature a leather trimmed steering wheel and gearshift. Ideal for motorway driving, the cruise control and speed limiter featured on the '3' upwards allows the driver to maintain a constant speed during long journeys. For passenger comfort, air conditioning is a standard feature on the '1 Air' upwards whilst automatic air conditioning is amongst the standard features on the '3' upwards.

1. Smart key with engine start/stop button ('4') – the engine starts with just one touch of the start/stop button. 2. The reversing camera system (integrated into the sat nav screen) is a standard feature on the '3' upwards which shows a full view of any obstacles to the rear of the car when reverse gear is selected. 3. Steering wheel mounted controls and Bluetooth® with music streaming* ('2' upwards). 4. On chilly winter days, enjoy the luxury of heated front seats ('3' and '4') and a heated steering wheel ('4').

Driver Ergonomics

Driving the Venga is a unique experience. The high seating position gives you an enhanced feeling of control with the benefit of superb all-round visibility. Soft touch materials and a stylish high-gloss black centre fascia ('3' and '4') creates a contemporary look to the cabin.

The Venga boasts a myriad of superb features including a handy tilt and telescopic steering wheel adjustment. Enjoy the latest forward-thinking technology at your fingertips – steering wheel mounted controls provide easy access to the Bluetooth® with music streaming feature ('2' upwards) which can be used to make calls and even play music wirelessly.

Room for any adventure

As you'd expect from an MPV, the Venga is supremely versatile yet will surprise you. Despite its compact outer dimensions, the 4,075 mm Venga boasts an unusually long wheelbase and is surprisingly wide so it offers interior space comparable to that usually found in larger cars but within a footprint typical of a supermini.

1. Rear seats with ample head and legroom.
2. Rear seats with armrest to maximise comfort.
3. Adjustable rear seats allow flexibility and comfort for all passengers however long the journey.

Flexibility

To increase boot space Venga offers several options. For transporting awkward loads, space is enhanced by 60:40 simple-fold-and-dive rear seats which fold flat into the floor creating a vast 1,253 litres cargo bay. Or the flexible two-tier boot which provides the opportunity to expand the luggage area by simply lowering the floor thereby extending the total volume of this area to 440 litres.

Venga utilises the art of turning every possible millimetre into passenger or luggage space ensuring the range boasts impressive interior space in key areas including front and rear leg room and luggage space. The luggage area also features a helpful underfloor luggage tray for additional storage capacity. Net hooks and a net help to secure items whilst the parcel shelf keeps belongings away from prying eyes.

State-of-the-art technology

All Venga models feature USB and AUX ports for connection of an audio media device (ipod/memory stick) so you can listen to your favourite music via six high-quality speakers placed throughout the cabin. The handy onboard trip computer displays trip mileage, distance to empty, as well as instant and average fuel consumption providing precise information about your journey and driving.

On the '2' models upwards you can utilise the Bluetooth® hands-free feature which not only allows you to talk safely whilst you drive but is also set up to stream your favourite music wirelessly from your Bluetooth® enabled music player direct to the Venga's 6-speaker system. In addition, the '2' upwards also feature the convenience of rear parking sensors which help prevent collisions when reversing by identifying objects or obstructions and emitting an audible warning signal. These sensors help minimise the collision risks involved when parking or manoeuvring.

Venga '3' and '4' models boast standard features including a 7" full European map touchscreen satellite navigation system integrated into the central dashboard fascia and designed to help you navigate your way more easily and safely. It also provides access to a large selection of European maps and points-of-interest. Key features include motorway junction views, lane guidance, speed limit warnings, multi-route planning and tour planners. '3' upwards also feature a reversing camera system (integrated into the sat nav screen). The display screen features superimposed graphic lines which help to guide you smoothly into a parking space.

Bluetooth® with music streaming* ('2' upwards) -
Make and receive calls safely (see above).

USB and AUX outlets - Listen to your favourite music on the move.

Intelligent thinking

Several Venga models are available with Kia's advanced EcoDynamics technology. This fuel-stretching Intelligent Stop and Go (ISG) technology can help save up to 12% more fuel and reduce your carbon footprint – simply by cutting the vehicle's engine off whenever the car is stationary. When you come to a stop, select neutral and remove your foot from the clutch the engine will switch off automatically. When you are ready to move off again, simply press the clutch and the engine will re-start instantly. All elements work together to create what we call 'EcoDynamics'. Clever stuff!

The Venga is powered by the latest engine technology, designed to suit your driving style and to meet the highest environmental standards. Clean, quiet and highly fuel-efficient, the range is easy on the environment and on your pocket but economy does not come at the expense of performance. Venga's range of advanced technologies include a variable geometry turbocharger and second-generation Bosch fuel injection on the CRDi models. CVVT (Continuous Variable Valve Timing) technology plus electronic fuel injection boost performance on the petrol derivatives. Active driving technologies boost agility and stability to keep you comfortable and confident on the road.

Superior power, performance and efficiency

Power is delivered via a choice of four technologically advanced engines: a 1.4 litre 89 bhp petrol engine with 5-speed manual transmission and a 1.6 litre 123 bhp petrol engine available in a choice of 6-speed manual transmission or 6-speed automatic transmission.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

Two CRDi diesel engines are available. A 1.4 litre 89 bhp with 6-speed manual transmission is available on the '2' grades. Venga '3' and '4' models are available in a 1.6 litre 114 bhp engine with a 6-speed manual transmission. Responsive power steering, handling and suspension make for enhanced road handling even in the most challenging conditions.

Uncompromised safety credentials

At the crash test laboratories of Kia Motors' Namyang Research and Development Centre, we undertake rigorous testing for a wide range of accident scenarios. From the early phase of development we create computer simulations to predict a vehicle's safety and up to 100 crash tests of the actual vehicle are performed prior to launch.

Your safety is of paramount importance so the Venga has a myriad of standard safety features including six airbags, Hill-start Assist Control (HAC) which is designed to help minimise backward rolling on a steep ascent and Emergency Stop Signalling (ESS) which causes the brake lights to flash simultaneously followed by the hazard warning lights in the event of the vehicle braking sharply, helping to avoid collisions by warning following traffic.

The Venga range is also fitted with all-round 3-point seatbelts, whilst ISOFIX child seat top tethers and anchor fixings are fitted as standard in the rear to protect younger passengers on board. The Venga's rigid bodyshell and carefully positioned crumple zones help reduce any impact when it matters most.

- 1. Six Airbags** - The Venga is fitted with six airbags as standard – driver, front passenger, front side and curtain airbags which help minimise the risk of injury in the event of a collision.
- 2. Active Headrests** - In a rear collision the front headrests move forwards and upwards to help prevent whiplash injuries.
- 3. Tyre Pressure Monitoring System (TPMS)** - If one or more of the tyres becomes significantly under-inflated the low tyre pressure warning icon illuminates on the driver's instrument display warning the driver.
- 4. ESC (Electronic Stability Control)** - If you have to brake suddenly, ESC applies the correct amount of brake pressure to each individual wheel. It also reduces engine power to help you maintain control and bring your car back on course.

For complete peace-of-mind, Kia can offer you a great value fixed-price servicing package for your Venga which is called Care-3. Please speak to your Kia dealer for more information and pricing. Terms and conditions apply. Log onto www.kia.com/uk for details.

5-year paint warranty & 12-year anti-perforation warranty
High-quality body paint ensures long-lasting protection and shine for your new Kia. It also comes with superior corrosion protection and a 12-year warranty against rust from the inside out.

Financing

Your local Kia dealer can help you with a financing plan that's best suited to your needs. Log onto www.kia.com/uk for more details

Now there are even more reasons to buy a stylish, technology packed Kia. Peace of mind comes as standard when you join the Kia family with the Kia Promise – 7 great owner benefits when you buy your Kia and register at MyKia.

7 more reasons to join our Kia family

There are a lot of things to consider when buying a new car. Compromising on reliability in the long term shouldn't be one of them. That's why Kia have redefined quality and offers a unique, industry-leading 7 year warranty that comes with peace of mind for at least 100,000 miles.

If you've taken our complimentary 7 day insurance, we've got you covered from the minute you leave one of our dealers. We'll also give you a £250 excess return voucher which pays you back regardless of who you're insured with if you call Kia first. We will also provide you with a competitive quote for your annual cover.

Our 24/7 Roadside Assistance package is designed for Kia owners in partnership with the RAC. All new cars have complimentary cover for 12 months from the first date of registration. If you register on MyKia, you can unlock Kia Roadside Assistance Plus, giving you the highest level of cover provided by the RAC, including onward travel and European cover.

Order Genuine Kia accessories, where and when you need them! Our Click & Collect service offers choice and convenience, recognising your model from the registration number to ensure you get exactly what you need. Then simply collect at your nearest Dealer, where they can fit them too.

Online service booking offers convenience and flexibility 24/7. Offering quality and value at one of our Dealers nationwide. Kia trained technicians use the latest diagnostic equipment and technology. All of our Genuine Kia parts come with a 2 year warranty. Fully inclusive pricing at the click of a button.

When you own a Kia, you become part of the family and benefit from a relationship based on trust and transparency. When you visit one of our dealers for a service, your vehicle will benefit from a complimentary Health Check, a wash and vacuum and alternative transport if needed. Welcome to the Kia family!

Available to all Kia owners, whoever your insurer and whatever the circumstances of the accident, Kia Accident AfterCare can take care of things for you. We'll liaise with your insurer, provide a free courtesy car and exercise your right to genuine Kia parts and repairs at a Kia Approved Bodyshop.

*For full terms, conditions and exclusions please visit kia.com/uk
